

LISTING OF THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-20 (**Canceled**).

21. (**Currently Amended**) A method, comprising:

displaying to a player a game selection frame, wherein the game selection frame includes a plurality of games associated with pari-mutuel wagering, ~~wherein each game is a respective type of casino-styled pari-mutuel wager;~~

receiving from the player a selection of a first one of the plurality of games;

based at least in part on ~~response to~~ receiving the selection of the first game, displaying to the player a track selection frame, wherein the track selection frame includes a plurality of tracks ~~where at which~~ the first game is available for play;

receiving from the player a selection of a first one of the plurality of tracks ~~at which to play the first game;~~

receiving from the player a first wager ~~associated with on~~ a first event ~~that is~~ at the first track, wherein the first wager ~~is based at least in part on~~ corresponds to a playing of the first game;

displaying to the player at least a first option and a second ~~two or more~~ option[[s]],
wherein;

a selection of [[a]] ~~the~~ first option ~~is to switch by the player~~ allows the player to replay the first game at a track[[s]], different from the first track, without redisplaying to the player the game selection frame and as such, causes the track selection frame to be redisplayed to the player, wherein the redisplayed track selection frame includes at least a second track, different from the first track, at which the first game is available for play; and

a selection of [[a]] ~~the~~ second option ~~is to switch by the player~~ allows the player to select a game[[s]], different from the first game, at the first track without redisplaying to the player the track selection frame and as such, causes the player

to remain at the first track and further causes the game selection frame to be redisplayed to the player, wherein the redisplayed game selection frame includes at least a second game, different from the first game, that is available for play at the first track;

if the first option is selected, then:

~~displaying at least a portion of the plurality of tracks where the first game is available;~~

~~receiving a selection of a second one of the plurality of tracks; and~~

~~receiving a second wager associated with a second event that is at the second track, wherein the second wager is based at least in part on the first game;~~

receiving from the player a selection of the second option; and

in response to receiving the selection of [[if]] the second option is selected, then:

redisplaying to the player the game selection frame but not the track selection frame, wherein the redisplayed game selection frame includes at least the second a plurality of game[[s]] that are available at the first track;

receiving from the player a selection of [[a]] the second one of the plurality of game[[s]]; and

receiving from the player a third second wager associated with a third event that is at the first track, wherein the third second wager is based at least in part on corresponds to a playing of the second game.

22. (Currently Amended) The method of claim 21,

wherein ~~the displaying[[ed]] at least the first option and the second option[[s]] further comprises displaying to the player at least a third option,~~

wherein a selection of the third option by the player allows the player to replay the first game again at the first track without redisplaying to the player the game selection frame or the track selection frame; and further comprising:

if the third option is selected, then:

displaying a plurality of events that are at the first track, wherein each event is a respective race; and

receiving a fourth wager associated with at least one of the displayed plurality of events, wherein the fourth wager is based at least in part on the first game.

23. (Currently Amended) The method of claim 21, further comprising the steps of:
displaying at least one link to at least one instructional frame;

in conjunction with response to receiving the selection of the first game, receiving a selection of the at least one link; and displaying to the player at least one an instructional frame option for the first game.

wherein a selection of the at least one instructional frame option by the player causes an explanation frame for the first game to be displayed to the player, and

wherein the explanation frame comprises:

a plurality of rules for playing the first game; and

at least one simulated play of the first game according to the plurality of rules;

receiving from the player a selection of the instructional option; and

in response to receiving the selection of the instructional option, displaying to the player the explanation frame.

24. (Currently Amended) The method of claim 23,

wherein the at least one instructional explanation frame further comprises an option to a link to a game play frame, wherein the game play frame allows input of a wager associated with the first game;

wherein the method further comprises the step of receiving from the player a selection of the option to play the first game; and

wherein displaying to the player the track selection frame comprises displaying to the player the track selection frame based at least in part on receiving the selection of the option to play the first game.

25. (Currently Amended) The method of claim 21, further comprising the step of:
in response to receiving the selection of the first track, displaying to the player track information associated with the first track, wherein the track information comprises post times and odds for a plurality of events at the first track.

26. (Currently Amended) The method of claim 21, further comprising the step of
displaying to the player a video of at least a portion of the first event.

27. (Currently Amended) The method of claim 26,
wherein the method further comprises the step of recording the first event; and
wherein ~~the displaying[[ed]] the video comprises displaying to the player is of~~ at least a portion of ~~[[a]] the [[pre-]]recorded~~ first event.

28. (Currently Amended) The method of claim 21, ~~wherein the first wager is associated with a first user, and~~ further comprising the step of recording data to a reward card associated with the first user player, wherein the recorded data is based at least in part on ~~the determined result of the first wager.~~

29. (Currently Amended) An apparatus, comprising:
~~a memory operable to store track information; and~~
at least one processor communicably coupled to the memory;₂ and
a memory communicably coupled to the at least one processor and having stored thereon
software instructions, in which the software instructions, when executed by the at least one
processor, make the at least one processor operable to at least:

cause a display screen to display to a player a game selection frame, wherein the game selection frame includes a plurality of games associated with pari-mutuel wagering, ~~wherein each game is a respective type of casino-styled pari-mutuel wager;~~

receive from the player a selection of a first one of the plurality of games;

based at least in part on response to receiving the selection of the first game, cause the display screen to display to the player a track selection frame, wherein the track selection frame includes a plurality of tracks ~~where~~ at which the first game is available for play;

receive from the player a selection of a first one of the plurality of tracks at which to play the first game;

receive from the player a first wager ~~associated with on~~ a first event ~~that is~~ at the first track, wherein the first wager ~~is based at least in part on~~ corresponds to the first game;

cause [[a]] the display screen to display to the player at least a first option and a second ~~two or more~~ option[[s]], wherein;

a selection of [[a]] the first option is to switch by the player allows the player to replay the first game at a track[[s]], different from the first track, without redisplaying to the player the game selection frame and as such, causes the track selection frame to be redisplayed to the player, wherein the redisplayed track selection frame includes at least a second track, different from the first track, at which the first game is available for play; and

a selection of [[a]] the second option is to switch by the player allows the player to select a game[[s]], wherein: different from the first game, at the first track without redisplaying to the player the track selection frame and as such, causes the player to remain at the first track and further causes the game selection frame to be redisplayed to the player, wherein the redisplayed game selection frame includes at least a second game, different from the first game, that is available for play at the first track;

receive from the player a selection of the first option;

in response to receiving the selection of [[if]] the first option is selected, then the processor is operable to:

cause the display screen to redisplay to the player the track selection frame but not the game selection frame, wherein the redisplayed track selection frame includes at least a portion of the plurality of second track[[s]] where the first game is available;

receive from the player a selection of [[a]] the second one of the plurality of track[[s]]; and

receive from the player a second wager associated with a second event that is at the second track, wherein the second wager is based at least in part on corresponds to a replaying of the first game;

receive from the player a selection of the second option; and

in response to receiving the selection of [[if]] the second option is selected, then the processor is operable to:

cause the display screen to redisplay to the player the game selection frame but not the track selection frame, wherein the redisplayed game selection frame includes at least the second a plurality of game[[s]] that are available at the first track;

receive from the player a selection of [[a]] the second one of the plurality of game[[s]]; and

receive from the player a third wager associated with a third event that is at the first track, wherein the third wager is based at least in part on corresponds to a playing of the second game.

30. (Currently Amended) The apparatus of claim 29,
wherein[[[:]] the to cause the display screen to display[[ed]] at least the first option and the second option[[s]] further comprises to cause the display screen to display to the player at least a third option,

wherein a selection of the third option by the player allows the player to replay the first game again at the first track without redisplaying to the player the game selection frame or the track selection frame; and

wherein if the third option is selected, then the software instructions, when executed by the at least one processor, make the at least one processor [[is]] further operable to:

receive from the player a selection of the third option cause the display screen to display a plurality of events that are at the first track, wherein each event is a respective race; and

receive from the player a fourth wager associated with at least one of the displayed plurality of events, wherein the fourth wager is based at least in part on corresponds to the selection of the third option and thereby a replaying of the first game.

31. (Currently Amended) The apparatus of claim 29, wherein the software instructions, when executed by the at least one processor, make the at least one processor [[is]] further operable to:

cause the display screen to display at least one link to at least one instructional frame; in conjunction with response to receiving the selection of the first game, receive a selection of the at least one link; and cause the display screen to display to the player at least one an instructional frame option for the first game,

wherein a selection of the at least one instructional frame option by the player causes an explanation frame for the first game to be displayed to the player, and

wherein the explanation frame comprises:

a plurality of rules for playing the first game; and

at least one simulated play of the first game according to the plurality of rules;

receive from the player a selection of the instructional option; and

in response to receiving the selection of the instructional option, cause the display screen to display to the player the explanation frame.

32. (Currently Amended) The apparatus of claim 31,

wherein the ~~at least one instructional explanation~~ frame further comprises an option to a link to a game play frame, wherein the game play frame allows input of a wager associated with the first game;

wherein the software instructions, when executed by the at least one processor, make the at least one processor further operable to receive from the player a selection of the option to play the first game; and

wherein to cause the display screen to display to the player the track selection frame comprises to cause the display screen to display to the player the track selection frame based at least in part on receiving the selection of the option to play the first game.

33. **(Currently Amended)** The apparatus of claim 29, wherein the software instructions, when executed by the at least one processor, make the at least one processor ~~[[is]]~~ further operable to:

in response to receiving the selection of the first track, cause the display screen to display to the player track information associated with the first track, wherein the track information comprises post times and odds for a plurality of events at the first track.

34. **(Currently Amended)** The apparatus of claim 29, wherein the software instructions, when executed by the at least one processor, make the at least one processor ~~[[is]]~~ further operable to cause the display screen to display to the player a video of at least a portion of the first event.

35. **(Currently Amended)** The apparatus of claim 34, wherein the software instructions, when executed by the at least one processor, make the at least one processor further operable to record the first event; and

wherein ~~the~~ to display ~~[[ed]]~~ the video comprises to display to the player ~~is of~~ at least a portion of ~~[[a]]~~ the ~~[[pre-]]~~ recorded first event.

36. **(Currently Amended)** The apparatus of claim 29, ~~wherein:~~
~~the first wager is associated with a first user; and~~

wherein the software instructions, when executed by the at least one processor, make the at least one processor ~~[[is]]~~ further operable to record data to a reward card associated with the first user player; and

wherein the recorded data is based at least in part on ~~the determined result of the first~~ wager.

37. **(Currently Amended)** An apparatus, comprising:

a user interface at least one processor; and

a memory communicably coupled to the at least one processor and having stored thereon software instructions, in which the software instructions, when executed by the at least one processor, make the at least one processor operable to at least:

display to a player a game selection frame, wherein the game selection frame includes a plurality of games associated with pari-mutuel wagering, wherein each game is a respective type of casino-styled pari-mutuel wager;

receive from the player a selection of a first one of the plurality of games;

based at least in part on response to receiving the selection of the first game, display to the player a track selection frame, wherein the track selection frame includes a plurality of tracks where at which the first game is available for play;

receive from the player a selection of a first one of the plurality of tracks at which to play the first game;

receive from the player a first wager associated with on a first event that is at the first track, wherein the first wager is based at least in part on corresponds to the first game;

display to the player at least a first option and a second two or more option[[s]], wherein;

a selection of [[a]] the first option is to switch by the player allows the player to replay the first game at a track[[s]], different from the first track, without redisplaying to the player the game selection frame and as such, causes the track selection frame to be redisplayed to the player, wherein the redisplayed track selection frame includes at least a second track, different from the first track, at which the first game is available for play; and

a selection of [[a]] the second option is to switch by the player allows the player to select a game[[s]], different from the first game, at the first track without redisplaying to the player the track selection frame and as such, causes the player to remain at the first track and further causes the game selection frame to be redisplayed to the player, wherein the redisplayed game selection frame includes at least a second game, different from the first game, that is available for play at the first track;

receive from the player a selection of the first option;

in response to receiving the selection of [[if]] the first option is selected, then:

redisplay to the player the track selection frame but not the game selection frame, wherein the redisplayed track selection frame includes at least a portion of the plurality of second track[[s]] where the first game is available;

receive from the player a selection of [[a]] the second one of the plurality of track[[s]]; and

receive from the player a second wager associated with a second event that is at the second track, wherein the second wager is based at least in part on corresponds to a replaying of the first game;

receive from the player a selection of the second option; and

in response to receiving the selection of [[if]] the second option is selected, then:

redisplay to the player the game selection frame but not the track selection frame, wherein the redisplayed game selection frame includes at least the second a plurality of game[[s]] that are available at the first track;

receive from the player a selection of [[a]] the second one of the plurality of game[[s]]; and

receive from the player a third wager associated with a third event that is at the first track, wherein the third wager is based at least in part on corresponds to a playing of the second game.

38. (Currently Amended) The apparatus of claim 37,

wherein[[:]] the to display[[ed]] at least the first option and the second option[[s]] further
comprises to display to the player at least a third option,

wherein a selection of the third option by the player allows the player to
replay the first game again at the first track without redisplaying to the player the
game selection frame or the track selection frame; and

wherein if the third option is selected, then the user interface is software instructions,
when executed by the at least one processor, make the at least one processor further operable to:

receive from the player a selection of the third option display a plurality of
events that are at the first track, wherein each event is a respective race; and

receive from the player a fourth wager associated with at least one of the
displayed plurality of events, wherein the fourth wager is based at least in part on
corresponds to the selection of the third option and thereby a replaying of the first
game.

39. (Currently Amended) The apparatus of claim 37, wherein the user interface is
software instructions, when executed by the at least one processor, make the at least one
processor further operable to:

display at least one link to at least one instructional frame;

in conjunction with response to receiving the selection of the first game, receive a
selection of the at least one link; and display to the player at least one an instructional frame
option for the first game,

wherein a selection of the at least one instructional frame option by the
player causes an explanation frame for the first game to be displayed to the
player, and

wherein the explanation frame comprises:

a plurality of rules for playing the first game; and

at least one simulated play of the first game according to the
plurality of rules;

receive from the player a selection of the instructional option; and

in response to receiving the selection of the instructional option, display to the player the explanation frame.

40. **(Currently Amended)** The apparatus of claim 39,
wherein the ~~at least one instructional~~ explanation frame further comprises an option to a
link to a game play frame, wherein the game play frame allows input of a wager associated with
the first game;

wherein the software instructions, when executed by the at least one processor, make the
at least one processor further operable to receive from the player a selection of the option to play
the first game; and

wherein to display to the player the track selection frame comprises to display to the
player the track selection frame based at least in part on receiving the selection of the option to
play the first game.
